

Rowida Hany

Full Stack .NET Developer

Cairo, Egypt — rowidahany084@gmail.com — [LinkedIn](#) — [GitHub](#)

Professional Summary

Computer Science student and aspiring Full Stack .NET Developer with experience in C#, Object-Oriented Programming, Data Structures, and software development. Interested in building scalable and maintainable applications using the .NET ecosystem. Experienced in developing management systems and applying software engineering concepts such as collections, delegates, events, and generic programming.

Education

Ain Shams University

Cairo, Egypt

Faculty of Computer and Information Sciences

Computer Science

Technical Skills

Programming Languages: C#, C++, Python, JavaScript

Backend: .NET, ASP.NET Core, REST APIs

Database: SQL, Oracle, Database Design

Concepts: OOP, Data Structures, Algorithms, Collections, Delegates, Events, Generics, LINQ

Frontend: HTML, CSS, JavaScript

Tools: Git, GitHub, Visual Studio

Projects

Employee Management System

C#

- Developed an employee management system using C#.
- Applied five different collections to manage and organize employee data.
- Implemented a generic `Result<T>` type for handling operation results.
- Used custom filtering delegates and events to implement flexible filtering and event-driven functionality.

Library Management System

C#

- Built a console-based library management system using C#.
- Implemented book management, borrowing, returning, and late-report functionality.
- Applied Object-Oriented Programming and collection-based data management.

Training & Courses

C# Bootcamp – Job Ready Skills for .NET Development

Udemy

Activities

- Member of Robotech Student Activity – Public Relations.
- Member of Student Activity Committee – Science & Technology.
- Member of OSC Open Source Community.

Additional Skills

- Problem Solving
- Communication
- Teamwork
- Adaptability
- Continuous Learning
